This is an all-natural pain reliever. It is great for arthritis, muscle, and foot pain. It helps with fibromyalgia, carpal tunnel and sinus headaches. It is made with only 4 ingredients: Essential eucalyptus oil, for the pain; aloe vera oil to soothe the skin, jojoba oil to soften the skin, and grapeseed oil, which is good for all of these things.

Feel free to try a sample (but don't spray towards your face). Rub it in – it works most effectively when it penetrates deeply into the skin, through to the muscles, tendons, and such. You should feel relief in a few minutes.
